## RECUPERATING.

Rapid Strides Being Made by the City of Louisville.

The Wrecked Portion a Veritable Bee-Hive.

Business Resumes Its Regular Channels. No Longer Danger of a Water Famine. The Relief Fund Has Reached \$130,000 and is Being Carefully Distributed. Many Bogus Claims.

LOUISVILLE, Ky., April 5.—Over one week has now elapsed since the tornado, and the city is rapidly recuperating from its effects. The work of repair in the wrecked district is going vigorously forward, and that portion of the city is a bee-hive of carpenters, masons and laborers. Business has resumed its regular channels.

The danger of a water famine from the destruction of the standpipe at the water works has been averted by the substitution of a temporary apparatus which is being worked satisfactorily. Water has been turned on to all classes of consumers, and many factories which were forced to stop have resumed.

An exaggerated impression has gone abroad as to the extent of the district devastated. Except in the direct track of the whirling tornado, no damage was done, and nineteen-twentieths of the city is unharmed. In fact, outside the cyclone's path the storm was not one of unusual severity. There is no suffering for food or for shelter, but many poor people who lost their homes will require money to rebuild.

Louisville people are subscribing liberally, but will not be able to meet all the demands upon their liberality. While Louisville is not soliciting aid from the outside, voluntary subscriptions from other cities will be gratefully received and usefully applied.

Only two or three of the wounded by the cyclone have since died and the list of deaths is only seventy-six—a gratifying reduction from the wild reports the first day that hundreds were killed.

The Union depot will be rebuilt on a larger scale and the tobacco district will be built up better than it was before. None of the public buildings in the city were damaged in the least.

## THE RELIEF FUND.

It Has Now Reached \$130,000 and is Being Carefully Distributed.

The contributions for the relief of sufferers by the tornado amounts to over \$130,000. The Louisville, New Albany and Chicago road Thursday gave \$2,500. For Jeffersonville, Henry Peters, now in California, contributed \$500, and several other liberal contributions were received there.

A score of inspectors maintain a constant and systematic supervision, and no genuine want can easily escape notice. In order to have the best of service a half dozen experienced men are paid regular salaries to ferret out the needy and report. A very small proportion of the subscription fund has been paid out, as nothing but immediate wants have been relieved.

Blank applications for help in restoring destroyed furniture and household effects were issued from the press Thursday. They will be distributed among the investigators, who will fill out and indorse the applications. Many bogus claims have been exploded. One investigator was given a bunch of half a dozen claims Thursday morning to investigate. In the whole lot he found but one genuine.

One claimant had represented that his dwelling had lost its roof and that his furniture and household effects had been damaged. The claim was filed among those needing immediate relief, but when the investigator arrived he found the family ready to sit down to a royal dinner, and that all their damage to property could be repaired with a few dollars.

One committee soliciting subscriptions was given a section in the western suburbs, which was swept by the tornado. The prospect was very gloomy. Finally they found one man who contributed fifty cents. Thinking that it would not appear right to turn in only fifty cents one of the committeemen contributed \$25, and his committee was credited with \$25.50.

## STORM IN ILLINOIS.

Considerable Damage Done at Galena, Monmouth and Elsewhere.

GALENA, Ill., April 5.—A hurricane passed over this city about 2 o'clock Thursday afternoon, coming from the southwest. Rain fell in torrents during its prevalence, and a rumbling sound was heard like that which characterized the Hazel Green tornado, near here, a few years ago, causing great consternation among the people.

The roof of Wunbruster & Ross' furniture factory and several others in the same block were badly damaged, and the smokestack of the Galena boat and shoe factory was blown down. On the hill in West Galena fences were leveled and trees uprooted generally.

## At Monmouth.

MONMOUTH, Ill., April 5.—A cyclone struck the southwest part of this city at noon Thursday, causing considerable damage to property. No lives were lost. Several barns and small buildings were destroyed. The Chicago, Burlington and Quincy round-house was blown down, burying an engine in the debris.

## At Champaign.

CHAMPAIGN, Ill., April 5.—During a heavy wind and rain storm Thursday morning the roofs of three business houses occupied by A. Weitzer & Moody, clothiers; John Gere, dry goods, and the Fair, were blown off in Urbana. No other damage is reported.

## PASSING RAPIDLY AWAY.

The Great Army of Veterans Who Fought in the Rebellion.

WASHINGTON, April 5.—Commissioner Raum has prepared a mass of statistics bearing on pending pension legislation which must attract universal interest. They are not only important, but there is one feature of them which will startle and sadden all readers. The country has long been aware of the rapidly with which the leaders of the war have dropped off while still in the prime of life, and when according to all the accepted estimates of life they had still the promise of many years before them.

Gen. Raum has pursued this subject into the records of death which the public archives contain, and after much careful study in connection with the accepted life tables has reached the conclusion that over half a million veterans now living, namely, 586,000, will yet yield up twelve years of their lives on account of the wear of field service. In other words, the expectation of life for this number of survivors has, judged by the statistic of those who have already died, been shortened by twelve years.

This is a new view of the cost of saving the nation—a view which it is difficult for the mind to grasp in all its magnitude.

Scarcely less startling are the estimates that 200,000 veterans will die in the next six years; that in twelve years the number will have reached 450,000, and that this roll in eighteen years will have swelled to 720,000—thus duplicating, over and over again with dead, the great armies of the Union. Gen. Raum's figures were prepared for the chairman of the house committee on invalid pensions, to show the probable cost of a service pension bill which he had introduced. This bill provides a pension of \$3 per month for all who served honorably ninety days after they shall reach the age of 62 years.

## HORACE GREELEY'S COTTAGE

At Chappaqua, N. Y., Destroyed by Fire.

A Historic House Gone.

NEW YORK, April 5.—The home of Horace Greeley, at Chappaqua, N. Y., was burned Thursday. The loss is estimated at \$10,000; fully insured. The housekeeper escaped uninjured. Miss Greeley, who has made the place her home for several years, was absent. It was here that Horace Greeley established his well known experimental farm. The cottage stood on a steep hill, and was reached by a long flight of wooden steps. Its rooms were cosy and quaint, with low ceilings and polished hard wood floors spread with rugs, many niches and alcoves, and the walls of the library buried with books. It was originally Mr. Greeley's carriage-house, but when the large house he had built was burned, some years before his death, he had this remodeled into a very comfortable cottage. It was here that Mr. Greeley passed much of his time and did much literary work.

## PRETTIEST CRAFT AFLOAT.

Launching of One of the Most Perfect Models of Marine Architecture.

CHESTER, Pa., April 5.—The launch of the palatial side-wheel steamer Plymouth, built at Roach's shipyards for the Old Colony Steamboat company took place Thursday morning. The immense steel hull was tastefully decorated with flags of every nation, and glided down the greased ways most beautifully, amid the cheers of the crowd and the blowing of steam whistles.

The Plymouth is 386 over all, 350 feet molded length, 50 feet beam, 35 feet over guard, and 19 feet depth of hold. She will ply between New York and Fall river. The cabinet work is exquisitely fine, all the saloons and staterooms being finished in expensive hard woods. There is 250 staterooms, with accommodations for 1,200 passengers. The vessel, when completed and ready to take her place on the line, will, it is thought, be the most beautiful craft afloat, and a perfect model of marine architecture.

## Murderer Captured.

CHATTANOOGA, Tenn., April 5.—Arthur Palmer was brought for complicity in the murder at a bagnio in the city Wednesday night of Deputy Sheriff Gibson, left town early Thursday morning, and made his way to Crawfish Springs, Ga. He boarded a train on the Chattanooga, Rome and Columbus railroad, and was recognized by Conductor Moody, who drew a pistol, got the drop on and arrested Palmer. The culprit was taken to Lafayette, Ga., from whence he was brought back here and jailed. Bud Gordon, another of the trio of desperadoes, is still at large, although a reward has been offered for him by the sheriff, and a determined hunt is making for him.

## Gang of Counterfeiters Captured.

BUFFALO, N. Y., April 5.—A gang of counterfeiters, consisting of Edward Sylvester, Charley Mann and Harry Williams, together with a counterfeiting outfit and a quantity of bogus dollars, were captured by secret service officers Wednesday night. Mann's real name is Charles McCrane, a well known desperado, and has, with his brother, "Big Frank," been under surveillance in all parts of the country. Patrick McKeon was also arrested Thursday morning for passing counterfeit half dollars.

## Blinded by Natural Gas.

FORT RECOVERY, O., April 5.—Adam Beach, proprietor of a boot and shoe store here, had his eyesight almost completely destroyed Thursday morning in a natural gas explosion caused by igniting a match in a room filled with gas that had escaped from the stove, he having neglected to close the valve that shuts off the supply.

## Mexican Revolution.

CITY OF MEXICO, April 5.—The Diario Hagar says that a revolution has broken out near Iquala, in the state of Guerrero, the government of which is unpopular. The Nineteenth regular infantry and a regiment of rangers left Wednesday evening for Iquala.

## THE WINDY CITY.

Europeans Object to It as a Sight for the World's Fair.

And, in Consequence, May Not Be Fittingly Represented.

Tourists Don't Like the Idea of Traveling 1,000 Miles Beyond New York—An Austrian in Chicago Says Germany and Austria Will Be Represented, Probably Better Than at Paris.

PARIS, April 5.—What is probably but the first of a series of public protests was uttered Thursday against the choice of Chicago as the site for the world's fair. Europeans who are either possible exhibitors or visitors do not think with pleasure of the idea of having to travel 1,000 miles beyond New York.

Comment of The Matin.

"Americans," said The Matin Thursday, "will do the press of Europe the justice of remembering that it did not attempt to influence them in the selection of the site for the soi-disant universal exhibition, but now that they have made choice of Chicago, we may observe to our old allies, with all due respect for their commercial, industrial and financial genius, that they are committing a grave mistake, at least in regard to the profit that might be expected from the arrival of exhibitors or visitors from the other world."

The Paris journal goes on to say that, "While Americans are at liberty to manage their own affairs as they list, there is nothing to prevent us Europeans from declaring that the choice of Chicago is at least unfortunate for us."

After observing that the nations of Europe will be at a loss to understand why they should be required to bear the consequences of a quarrel between Republicans and Democrats, in which they have no interest, The Matin thus concludes: "We should not be surprised were the nations of Europe to abstain from giving to the great exhibition of the centenary of the discovery of America all the eclat which would be fitting."

Germany and Austria.

CHICAGO, April 5.—Mr. R. Ludwig, of Vienna, Austria, was at the Auditorium hotel Thursday, the first representative of any European firm to reach Chicago to arrange for an exhibition at the world's fair. He received instructions from his father, one of the wealthiest and most influential of Austrian manufacturers, to come to this city and report all that could be learned of importance to European exhibitors. He was asked Thursday as to the probable extent and importance of the foreign exhibit.

"The exhibits of Austria and Germany," he said, "will certainly, and those of other European countries probably, far exceed both in size and beauty the exhibits which they made last year at Paris. At Paris Germany had scarcely anything, because of the strained political relations with France. The Austrians have not yet forgotten that it was the French who beheaded Marie Antoinette, daughter of the Austrian empress. Such exhibits as were made at Paris by my country and by Germany were, with very rare exceptions, those of petty tradesmen and the smallest retailers. They did not show our large resources and manufactures. You may rest assured that your foreign exhibit will far exceed that of the Paris exposition."

## A DARING TASK

Undertaken by a Young Jerseyman.

Climbing a Chimney 335 Feet High.

NEW YORK, April 5.—How to get up the chimney at Harrison, N. J., was a puzzle which agitated the Clark Thread company from the time that two strokes of lightning marred its beauty and probably its safety on Friday last. The balloon experiment was not tried because of a fear that the sharp edges of the cast-iron cap would cut a rope.

On Tuesday John Phillips, of the slate-roofing firm of W. S. Smith & Company, called at the works and contracted to climb the chimney for a stipulated sum if the company would supply ladders. He explained his plan and was permitted to make the trial. The chimney is 335 feet high and the bell shaped top flares out five feet beyond the collar, but this feature did not daunt Phillips, who began work at noon on Wednesday with a thirty-five-foot fire truck ladder whose spikes were sunk in a heavy plank.

A second ladder, twenty-five feet in length, was lashed to this and both were firmly anchored to the chimney with hooked spikes, seven-eighths inch steel, and driven into the Portland cement between the bricks. There was a lot of light and new ladders at hand, and before night Phillips had five of them in place. Each ladder lapped on the one above for five feet. At its base a cross cleat of wood was lashed and between it and the face of the chimney a stout piece of plank was placed on two spikes driven into the brick work. These shelves keep the ladders a foot from the chimney and make stages upon which Phillips can stand.

He carried up a tackle block and rope by which each successive ladder was hauled up by his helpers on the ground. Phillips thought that he could put all the ladders firmly in place and reach the top of the chimney in two days, but in this estimate he did not reckon on the hardness of the cement in which sixty feet of the bricks are laid, and the mortar in which the remainder of them are imbedded. When he quit work Thursday night the top round of the upper ladder was 200 feet above ground.

He has climbed other chimneys in this manner, but never went above 200 feet. How he proposes to master the difficulty when he reaches the eighteen-inch collar and the five-foot outward slope at the bell he does not tell, and it is hard to understand how he will ever overcome the trouble which he will encounter when he

reaches the top of the cast iron forming the huge cap. His bargain is to go up and rig a rope and tackle by which the workmen can ascend and examine the shattered brick work.

## THEY WANT OUR MARKET.

Agricultural Depressions Threaten Canadian Farmers With Ruin.

TORONTO, April 5.—In the Ontario legislature, Wednesday night, Mr. Graham, member for East Lambton, moved that in the opinion of the house it is desirable that closer trade relations should exist between the United States of America and the Dominion of Canada, and that the house do humbly petition the legislature of the Dominion of Canada to take such steps as they may deem expedient to bring about unrestricted reciprocity between the United States of America and the Dominion of Canada.

Mr. Graham said that in bringing this important question before the house he was following the action of the Quebec conference of 1887, and also of the Manitoba legislature, which recently passed a similar resolution. He said that the latter had been discussed and favorably pronounced upon by farmers' institutes all over the province. There was no use in concealing the fact that the farmers were handicapped by the prohibitory tariff which the Americans had put upon our products, and if something was not done to relieve the farmers they would soon become bankrupt.

The United States was our natural market, he said, and it was in the interest of the whole country that closer trade relations should prevail. The farmers were as loyal as any other men, but they had a right to ask that justice be done them. If Canada failed to get unrestricted reciprocity with the United States he believed annexation to be her inevitable destiny.

## THE MAD MISSISSIPPI.

Terrorizing Times in Arkansas City and Elsewhere.

NEW ORLEANS, April 5.—A special from Arkansas City, received at a late hour Thursday night, says:

Another wind and rain storm raged here last night. About 1 o'clock several strong blasts of wind in rapid succession severely tested the strength of every house in town and brought their occupants out of their beds. For several minutes it looked as though the town would be blown away.

The terrors of a storm in a town covered by water to a depth of from eight to twelve feet can hardly be imagined. The Catholic church, an elegant little structure, was blown from its foundation and considerably damaged. The building was flooded to a depth of eight feet and all the furniture and fixtures badly damaged. A negro church was also blown from its foundation, but did not sustain very serious damages. Three or four residences were treated likewise. The damage is considerable and will aggregate \$3,000.

The government boats, H. M. Graham and R. A. Speed, have been busy all day relieving the distressed people on the opposite side of the river.

## STOLE \$41,000.

A Thieving New York Bank Messenger Arrested in Spanish Honduras.

NEW YORK, April 5.—A Herald special from Tegucigalpa, Spanish Honduras, says:

Edmund Sturgis Crawford has been arrested at Santa Barbara for the theft of a package containing \$41,000 in transit from the American Exchange National bank in New York, to the Adams Express company's office. The package was addressed to the United States treasurer at Washington. A large portion of the money was found in Crawford's possession. The robbery was committed in New York May 4, 1888. Crawford has confessed and implicates two others.

The Herald says the express company has spent \$25,000 in tracing Crawford. He was a messenger in the bank when he committed the theft. Pinkerton says Crawford's confession implicates some fast New Yorkers. Crawford was living as a planter in Honduras and passed for a man of wealth.

## ROWAN COUNTY, KY.

Lawlessness Again Makes Its Appearance—Six Men Shot.

FLEMINGSBURG, Ky., April 5.—Lawlessness and violence have again made their appearance in Rowan county, growing out of the manufacture and sale of illicit whisky. The United States revenue men made a sweep a week ago destroying various stills, and things are being made decidedly uncomfortable for the people who are thought to have given the government information. Eph Cooper was shot by an unknown man.

Earl Bumgartner and Sim Cooper were both shot in a fight Thursday.

George Hogg, son of the sheriff, was shot Friday morning.

Hiram Roberts was bushwhacked Thursday, and very seriously wounded.

Nelson Egan was called to his door Tuesday and shot.

It seems to be a mere question of "whisky or no whisky."

Talmage's Much Advertised Stone.

NEW YORK, April 5.—The stone from Calvary, which is to form the corner of Dr. Talmage's new tabernacle, arrived at Brooklyn Thursday on the steamer Giava. It is about three feet square and ten inches thick, and weighs nearly 325 pounds. Its color is dark red, and it looks very much like a piece of Canadian granite. The legend is that the stone is the one upon which the Savior stepped while on his way to the cross. A box of relics accompanies the stone.

## Maine Hotel Burned.

LEWISTON, Me., April 5.—The Buckfield house, at Buckfield, was destroyed by fire Thursday night. The house was full of guests who had barely time to escape to the street in their night clothes.

### THE EVENING BULLETIN

DAILY, EXCEPT SUNDAY.

ROSSER & McCARTHY,  
Proprietors.

SATURDAY, APRIL 8, 1890.

A BILL is pending in the Legislature to repeal all acts or parts of acts that gives to any city or town the State's part of fines and forfeitures to use for their own benefit.

THE Legislature has passed a bill requiring supervisors of tax books to give notice when they increase an assessment. The bill requires the board to sit twenty days to revise the books and ten days to hear from parties notified.

CAPT. WOODFORD W. LONGMOOR, Democratic candidate for Clerk of the Court of Appeals, has been in town a few days, but leaves this afternoon for his home at Cynthiana. He considers his prospects for securing the nomination very bright.

NEW MEXICO has double the property valuation and 50 per cent. more population than Wyoming; but New Mexico is Democratic, and that is why Wyoming is admitted as a State in the Union and New Mexico shut out. Just as certainly as there is honesty among the great body of the people, such rank injustice will be rebuked.—Louisville Times.

THE Frankfort correspondent of the Cincinnati Post sends that paper the information that the Legislature has passed "a general advertising bill." This will be news to our friend Keller, of the Carlisle Mercury, who prepared the only advertising bill introduced at this session. The fact of the matter is, the bill was unceremoniously tabled by the House, as the Post's itemizer will find by examination.

"AFTER flying from pillar to post between the boot, shoe and harness manufacturers at the East, and the grangers of the West, Mr. McKinley has agreed with himself that a tax of 15 per cent. on hides is about what he will charge people who wear boots and shoes in this glorious Union," says the Louisville Times. "While these articles of luxury are taxed, such necessities as fine paintings and statuary are put on the free list."

GOVERNOR BUCKNER's veto axe has fallen with its keen edge on the bill to charter the town of Clay City. One of his reasons for refusing to approve the act was that it would have turned into the town treasury some fines and forfeitures belonging to the State. The Governor has vetoed several other new charters for the same reason during the present session, and as Maysville's proposed new charter contains the objectionable feature it will likely meet the same fate.

### Items for the Farmers.

The Farmers Alliance in Bath County is said to have 800 members.

Dr. Alex. Hunter, of Washington, has sold a bay gelding, sired by Dan Swigert, to Dan Mitchell of Helena for \$225.

Joseph Coons of this county sold his inbred Montrose saddle stallion last week to Howard Farrow of Mason County for \$800.—Carlisle Mercury.

N. J. Power & Co.'s next combination sale of fine bred horses will take place June 2. All parties wishing to enter stock should apply to Mr. Power.

The fine saddle stallion, Lone Star, the property of Mr. N. J. Power, will make the season of 1890 at Cedar Grove Stock Farm in Fleming County. This horse has superior qualities, possessing as fine blood as any saddle horse in the State. Breeders are invited to call and examine him.

Says the Western Tobacco Journal: "The continued rains have delayed preparation of plant beds throughout the burley sections of Kentucky and Ohio, comparatively few beds being yet sown with seed. Some planters are getting anxious and numbers are expressing the belief that the crop will be small. \* \* \* Last year this time canvass covered plant beds dotted the country. But if this kind of weather continues during the first of April there will be some cause for anxiety. What effect the water soaked condition of the land will have on the development or health of plants is a subject worthy of note."

The Journal is not alarmed, however, at the situation and thinks there is plenty of time to sow beds for several weeks to come.

### The Commercial Club.

The Commercial Club held an interesting meeting at the Council Chamber last evening, but the attendance was not what it ought to have been. Several new applications for membership were received.

Various enterprises were discussed. The sum of \$1,000 was subscribed to aid in starting a barrel factory.

A committee was appointed to confer with the K. C. people and try to have the schedule so arranged that an accommodation train will arrive here early in the morning and leave late in the evening. Several other committees were appointed to look after other important matters the Club is considering.

### Paragraphs From the Bourbon News.

The jack-snipe season is on, and they fly so sudden and so crooked that it takes four shots to keep the meat from flying off with the feathers.

The blue birds are trying awful hard to usher in spring, but the dear old girl swings back on the halter like a balky mule.

### Captain Brain Again.

John C. Brain, who was in Maysville a few months since as the ostensible representative of an "English syndicate" that proposed to buy all the distilleries in Kentucky, and who was later in the jails of Bourbon and Daviess counties on charge of obtaining money under false pretenses, has turned up at Danville, Va. A special from there says:

"J. C. Brain, representing a large English syndicate, is here for the purpose of buying eight of the largest tobacco factories in Danville and organizing them into one stock company. He came here from Lynchburg, and it is said he obtained options on several large tobacco factories in that city."

### At Home and Abroad.

Mr. Boyd K. Muse, a student of the State College at Lexington, is in town on a visit.

Mr. Herman Lange, the jeweler, of Cincinnati, was in town yesterday greeting his old friends and patrons.

Colonel Frank Owens, of Maysville, passed through here Wednesday, from Lexington, when he had been the guest of his daughter, Mrs. Robert Blaine, who had just gone to house-keeping.—Bourbon News.

### Tourists.

Whether on pleasure bent or business, should take on every trip a bottle of Syrup of Figs, as it acts most pleasantly and effectually on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 50c. and \$1 bottles by all leading druggists.

### OUR NEIGHBORS.

#### MAYSVILLE.

Miss Lizzie Chinn is quite sick with la grippe. Big Charles Williams is poorly with erysipelas.

The Stonewall House was crowded with drummers last week.

C. C. Hopper and wife, of Maysville, came up last Wednesday to visit his mother.

A. G. Wilson, of Lewis County, came down last Wednesday to see his cousin, Judge Wilson.

Robert, son of Joe H. Brown, a West Pointer, is visiting his father in this place.

#### WASHINGTON.

Mr. James Tucker, Jr., is very ill.

Rev. W. T. Spears has gone to the Presbytery at Paris.

Mrs. James B. Casey has returned to Covington.

Thomas Anderson, of Cincinnati, was here this week.

We haven't heard any complaints of injury to the wheat about here.

Some two or three farmers report tobacco plants up finely, while the great majority have not sown a bed.

Mr. John Stevenson, an old and most worthy citizen, near here, is reported right sick.

J. Hal Wood has returned from a trip to Bourbon County, at 1 reports his aunt, Mrs. LaRue, no better.

Mrs. Dr. Robert N. Taylor and son, of Lewis County, are visiting their relatives here.

A Washington firm, Wood & Knight, got the contract for painting the county arms house, they having been the lowest and best bidder.

The white caps have posted notices warning idlers and whisky sellers that they will visit this locality very soon, with a sufficiency of switches to go 'round, unless there is an immediate change for the better.

## SPRING ANNOUNCEMENT.

WE ARE PLEASED TO ANNOUNCE THE ARRIVAL OF OUR SPRING STOCK OF

## BOOTS AND SHOES

And that there never was such a complete and varied assortment brought to this market.

Ladies' Artistic Shoes and Slippers, all the latest novelties, new style lasts, in best makes of the land.

Gentlemen's Fine Footwear, Hand-Sewed, Goodyear Welts, McKay Sewed, new style toes and lasts, finest ever shown.

Farmers should inspect our line of Brogans and Plough Shoes, which is the most extensive ever offered in Maysville.

We feel that it is hardly necessary to say anything about our prices and the quality of our goods, as the fact is thoroughly established that we are selling the very best goods at much lower prices than they were ever sold in this market. We have made further reductions on our prices from last season. One price---spot cash. Come and see our grand display. Respectfully,

**H. C. BARKLEY.**

JOHN O'CONNELL, of Germantown, Geo. W. Hatton, of Cynthia, Daniel Caul, of Burtonsville, and J. F. Powell, of Sardis, are among the old soldiers who were granted pensions this week.

THE moonshiners of Rowan County are getting even with the fellows who are supposed to have given them away to the U. S. revenue officers a week or so ago. Six parties have been shot there this week.

WILLIAM VICKROY, son of 'Squire Vickroy, had one of his legs broken late yesterday afternoon. He was caught in the elevator at the Dodson building while assisting Mr. Watson in moving his cigar factory to that place. He was resting easy this morning.

REPRESENTATIVE PENNELL, of Brown County, Ohio, called Allen O. Myers a liar one evening this week in the hotel office at Columbus, and the latter retaliated promptly by handing the legislator one over the right eye. Friends interfered and prevented further bloodshed.

RINGGOLD LODGE No. 27, I. O. O. F., has sent \$100 to the relief of the Oddfellows of Louisville who suffered by the recent cyclone. Humboldt Lodge of that city lost eleven members and all its lodge property. Ex-Grand Master A. J. Reed is one of the injured members. One of his legs was broken.

GOVERNOR BUCKNER has designated Saturday April 12th as Arbor Day, and recommends that all public schools and colleges of the State observe the same by suitable exercises, having for their object the imparting of practical knowledge in arboriculture, and the adornment of schools and public grounds.

THIS is the way Rev. Sam Jones talked to a fellow down in Texas: "You little Tyler infidel, you little narrow-eyed fool, a fly can sit on your nose and paw you in one eye and kick you in the other." "If this is the way the Rev. Sam talked to the little Tyler infidel, how interesting he would be in his remarks to big Bob Ingersoll," remarks an exchange.

THE boss cat lie of the season, runs as follows, in an exchange: "Two cats of the Sir Thomas persuasion, became involved in a personal difficulty in a barn, near Harrodsburg, and electrical sparks from the fur ignited the barn and destroyed the building and contents, including some valuable thoroughbreds. The cats of course escaped. Whether this is a feline yarn or an electrical lie, we are at a loss to know." "Rats."

PROFESSOR BRISTOL's educated horses, ponies and mules gave an entertaining exhibition at the opera house last night. Don't fail to see them this afternoon or to-night. The Indianapolis Sentinel says: "To describe all that is done by them would be impossible. It is only necessary to say that the exhibition given is a most wonderful one. They understand what is said to them with an intelligence that is almost human."

COVINGTON's street railroads are being converted into electric railways. The Commonwealth says: "The feed wires are up, the putting up of the trolley wires will be completed as soon as a sufficient amount of wire is received from the manufactory; the foundation for the engine and boilers in the power-house is about ready; the manufacturers of the dynamos and other appurtenances of the plant are pushing them forward as fast as they can, and the prospect is that Covington will have rapid transit between the 1st and 15th of next month, if no obstruction is thrown in the way. This much-needed and desired facility is in sight at last, and the people, to whose uses and benefit it is intended to minister, are not in a temper to brook obstruction. Nothing is more calculated to promote the prosperity of the city." \* \* \*

If no obstruction is thrown in the way here, the Maysville Street Railway Company, with its electric road, will soon solve the question of rapid transit in this city.

#### Easter Services—Church Notes.

The Presbytery of Ebenezer is in session at Elizaville.

## CAN'T BE BLAMED.

Interview With Stanley Concerning Emin's Action.

He Had Offers from England as Well as from Germany.

Transgression by Either Nation a Matter for Diplomacy—Berlin Comments. Second British Expedition to Be Sent Against the Somalis—Dom Pedro Again Reported Ill—Foreign.

LONDON, April 5.—A dispatch to The Times from Cairo says that in an interview Stanley said:

"Emin had both English and German offers, and he cannot be blamed if he gave the German offers preference. The German sphere of usefulness is clearly defined. Wissmann and enterprising Germans are entirely within their right of availing themselves of every assistance. Any transgression by either the English or Germans is a matter for diplomacy.

"Emin is very sensitive. Things have gone unfortunately away since he returned. It is likely that matters were misrepresented to him during his illness. He probably thinks his absence the better plan. If he wins over the Arabs he will add to his reputation and not hurt English interests. Still the Germans cannot be too cautious in their natural desire to secure trade routes. I have heard of no action either by the Germans or by Emin that would chill my sympathies with them. Emin's proclamation reveals soreness and was unnecessary."

### Emin's Manifesto.

ZANZIBAR, April 5.—Emin Pasha, in a hand bill, accuses the British consul of falsely describing him as the plaintiff in Tippoo's case, the real plaintiff being Stanley. Emin appears to be mistaken in this, the real plaintiffs being the Emin relief committee. The general belief is that politicians are making a cat's paw of Emin.

### German Comments.

BERLIN, April 5.—The Freissinnige Zeitung, referring to the action of Emin Pasha in taking service under Maj. Wissmann, thinks that Chancellor Von Caprivi is inaugurating his policy by a very serious mistake.

The National Zeitung denies that the subjection of the south coast of East Africa has been abandoned. It explains that the order to prohibit caravans north of the Tana river is due to Masai attacks on caravans.

### Mobbed By Students.

ST. PETERSBURG, April 5.—Gen. Gresser, chief of police, was mobbed by a party of students, who threw him down and kicked him, inflicting what may perhaps prove to be serious injuries. The excitement is intense.

All the universities here are closed.

### British Expedition a Failure.

ADEN, April 5.—The British expedition recently sent out against the Somalis having failed to accomplish its mission, another expedition has been started.

The Esa tribe have made another attack upon the Bulhar people and defeated them with terrible slaughter.

### America Approves of It.

MADRID, April 5.—A project for the repression of false marks of origin on industrial products has been submitted to the industrial conference by the Swiss and Spanish delegates. The project is approved of by the American delegates.

### Dom Pedro Unwell.

RIO JANEIRO, April 5.—A dispatch from Cannes says: Dom Pedro is unwell. Dr. Charcat considers his illness not serious. Dr. Charcat is the great French specialist on mental diseases.

### Will Work Short Time.

BOMBAY, April 5.—The Mill-owners' association has decided to shut down the spinning mills eight days, and the weaving mills four days in each month, for a period of three months.

### Marquis of Normandy Dead.

LONDON, April 5.—George Augustus Constantine Phipps, Marquis of Normandy, is dead. He was in his seventy-first year. His death occurred at Brighton.

### Foreign Notes.

The report of a rupture between Bulgaria and Serbia is officially declared to be untrue.

H. M. S. Sultan has captured a dhow with twelve enslaved Wangwanese porters aboard.

The report of the czar's indisposition is confirmed. He has a high fever and is extremely nervous.

Forty Boulangerists, including Laguerre, Laissant and Deroulede, have left Paris for Jersey to confer with Gen. Boulanger.

At Debreczin, Hungary, a dispute arose between a number of officers in a restaurant, which ended in the issuance of forty challenges to duels.

The Geographical society of Italy has appointed a committee to meet Stanley at Brindisi, on April 10, and accompany him in his triumphal progress to London.

A bill authorizing a company to raise \$200,000 for the purpose of completing the canal across the Isthmus of Corinth has passed the Greek chamber of deputies.

George Davies, the 16-year-old boy who, together with his elder brother, Richard, was sentenced to death for murdering his father at Crewe, England, has been respited by the home secretary.

A fire at Santiago de Cuba, in the building occupied by the chamber of commerce, resulted in the destruction of a dry goods store and its contents and the burning to death of two women and a negro girl.

Mr. James Lee, charge d'affaires of the United States in Brazil, has presented Gen. Deodoro da Fonseca with the congratulatory motion adopted by the United States congress and approved by President Harrison.

The scheme of the czar to abolish the liberties of Finland is being received by the people of that country with great disfavor. Late reports say that trouble is certain to follow any attempt to put the scheme in operation.

New Goods! New Store!

Having disposed of all my stock of goods damaged by the late fire, I am now able to announce to the public that I will on Thursday, the 27th inst., open up in my elegant new store room on the N. W. corner of Market and Third streets, in Maysville, Ky., a new and complete stock of Staple and Fancy Groceries, Pr. visions, Canned Goods, &c., &c. I feel that I am at least able to supply to the people of Maysville and vicinity what they have long needed—a first-class grocery in every respect. I do not propose to quote prices on a few articles less than cost in order to get you to come to my house so I can have a chance to over-charge you on some other article, but by dealing with you fairly and giving you good goods at fair living profits, I shall expect to merit a liberal share of the patronage of the public. Everybody is invited to call, and a special invitation is extended to the ladies. Country people are invited to bring all their produce to me and make my house their headquarters while in the city. R. B. LOVELL.

### HEADQUARTERS
